ENDLESS SOLUTIONS
IN METAL FORMING

*Installs in half
the time!*

Speed and Profit

The SSCoupler™ was designed with one overriding goal: to save field labor. In fact, actual time studies reveal savings up to 50% compared to other systems. It's so simple! - once you try it, you'll never go back!

Versatility and Selection

The SSCoupler™ is available in sizes ranging from 6" to 36" (odd and even sizes), and can be adapted to accommodate the customer's provided gasket (see figure). Choose from galvanized, paintgrip, stainless steel, aluminum or plastic coated materials.

Quality and Precision

Unlike other couplers, the unique, standing rib of the SSCoupler™ consistently maintains the shape of round duct during installation, making alignment and insertion a snap!

***When installed and sealed per Spinfinity's recommendations, the SSCoupler™ is suitable for use across a range of internal duct pressures from positive to negative 10" W.G.**

Service and Delivery

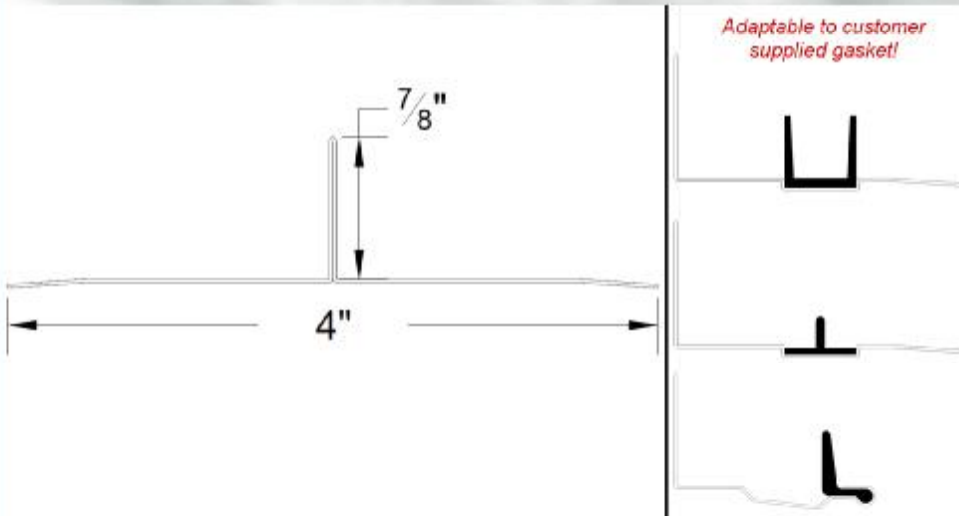

The galvanized SSCoupler™ is available nationwide for next-day shipment from two strategically located facilities.

*Available in
6" to 36"!*

*Built to
withstand
±10" W.G.**
